## Out At Work Employer - Employee Diversity Program

An organization that truly includes the lesbian, gay, bisexual and transgender community goes beyond just policies and benefits, and into practices. That includes ensuring that the internal climate and work environment enable all employees to feel safe and comfortable, regardless of gender identity or sexual orientation. But it also means that the organization

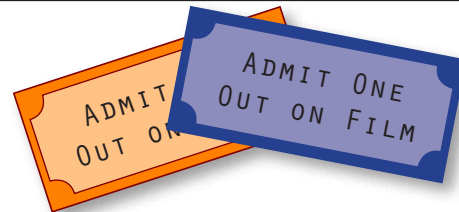

includes LGBT people holistically, including marketing, philanthropy, recruitment and procurement efforts. By ensuring a safe and productive internal climate, businesses can offer LGBT employees a sense of community within the organization. Out on Film's "Out at Work" program offers employers special benefits they can pass along to their LGBT and straight employees.

### PREMIUM SPONSORSHIPS

Out on Film has a variety of premium sponsorships available for both cash and in-kind support. Multiple sponsor levels provide a wide range of film and promotional benefits.

### EMPLOYEE DISCOUNTS

Out on Film's Out at Work program offers participating companies the ability to provide all employees with special discounts on screenings. Many screenings also include filmmaker Q&A and after parties.

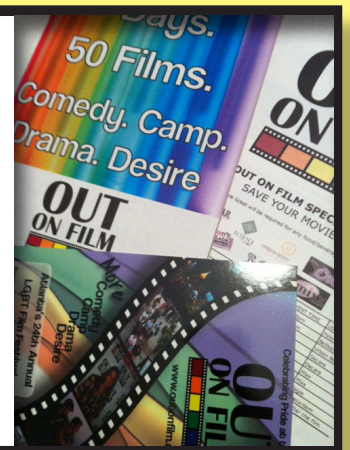

### SPECIAL SCREENINGS

Companies can sponsor specific films and invite their employees and customers. Sponsored screenings enable employers to purchase the theater at a discount and use those seats at their discretion.

### MARKETING MATERIALS

Out on Film can provide printed or electronic materials such as postcards, posters and stuffers that companies can post or distribute throughout their organization.
